Introducing the Line Up Optimizer The Line Up Optimizer now features Assistant Manager functionality. During the game, Assistant Manager has a number of tools that can be used to influence match events. For example: the Line Up Optimizer can transform the starting lineup, change the lineups used in the team instructions and more. The Line Up Optimizer can be found on the Squad Screen and will be available for all digital platforms. Improved Scoring Over the last FIFA title, subtle changes were made to the way that players are registered for the scoring system. As you can see in the image above, players are now registered in groups with last names that start with the same letter. Last names are now used for team formations, and are also a key part of player booking and in-game feedback. A new interface has been added to the 'More' tab for the Player Profile. This feature allows you to quickly see a player's detailed performance statistics, such as his assists, goals, shots, and more. 'Player Statistics' can be accessed from the player cards in-game, with each one giving you an extensive breakdown of the player's strengths and weaknesses. Improved Player ID New midfielder, midfielder, and striker cards have been added to Fifa 22 Cracked 2022 Latest Version, and the in-game player ID section will now give you a way to instantly switch to that player. Both men and women will now have separate virtual strength/weakness ratings, which can be edited in the game's 'More' tab. The ratings will also be used to rank a player's star level. Players can now also be rated in the 'More' tab, which gives you an overall rating for a player. The Book of Creators The Book of Creators is a new, interactive menu that will be accessible from a player's on-pitch cards. The Book of Creators will allow you to explore and learn about the player, and will contain a variety of data points, such as attributes, character traits, positions, and more. The Book of Creators also includes a 'Designation' feature that allows you to assign a player to a specific position. Not only that, but we have not seen this level of critical acclaim from you ever before. Thank you. It's also been great having @allinwithci and @Scottdavies on the development team, as they've been an amazing and helpful addition to a key discussion regarding diversity in representation across all of EA Sports. We're proud that we've been able to welcome a number of female faces in the team, as in FIFA 19 and it's been fantastic to see that trend continue.**
